About Us

PT. Arda Teknik Perkasa (ATP) was established in 2023 in Jakarta, Indonesia, with strong expertise in mechanical, electrical, electronics, instrumentation, and piping. The company's foundation is built upon our extensive experience in supplying and installing mechanical systems, electrical systems, instrumentation, and piping networks for factories, power plants, mining, and oil & gas companies across Indonesia.

We are committed to continuously enhancing our competencies to become a technical product and service company that meets the needs of the industrial sector, particularly in mechanical, electrical, electronics, piping, and instrumentation.

Our competencies are specifically divided into several areas:

- ✓ **Engineering:** Expertise in designing and implementing electrical systems up to medium voltage, as well as piping networks for industrial, power generation, mining, and oil & gas applications.
- ✓ **Production:** Capable of manufacturing low-voltage electrical panels and mechanical products for industrial needs.
- ✓ **Services:** Skilled in the implementation and installation of mechanical, electrical, electronics, piping, and instrumentation works.

Core Values

Vision

To become a respected construction service company, recognized by similar companies both domestically and internationally, with excellent quality and competitive pricing. Additionally, to become a trusted supplier in its field, emphasizing on-time delivery and consistently growing to provide maximum service to clients.

Mission

- Capacitate the company with competent staff
- Maintain a high level of professionalism
- Add value to our clients
- Advocate for efficiency in all we do to optimize productivity at minimal cost
- Ensure to follow the government regulation in all our projects

Core Values

On Schedule

We strive to deliver the best result in accordance with the given project time in an efficient, reliable and professional manner.

On Quality

Our Quality control & Quality assurance will ensure our project are following the international, national and client procedure.

On Budget

Our Project Management team always committed

to follow the allocated budget of the project.

On Safety

We implemented a safe operating practices procedure through continuous training and periodically awareness programs
